Art Unit: 3617

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 3-5 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Aquasport. Aquasport discloses the claimed subject matter including a boat covering structure with, a frame, a lid, connecting means and a storage compartment.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Aquasport in view of Daggett et al. Aquasport does not disclose height adjustable supports. Daggett et al teach height adjustable supports. It would have been obvious to a person of ordinary skill in the art at the time the invention was made to form the method of installing the device of Aquasport to include height adjustable supports as taught by Daggett et al to allow for adjustments to accommodate the differences in height and size of operators and of various sized boats and consoles.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bartholomew shows a boat top. Pepper et al show a canopy. Richens, Jr. show a storage container. Hastings shows a boat top.
